
CERTIFIED CARPET DISTRIBUTORS, CHEMTEC JOIN LIST OF SCHÖNOX PARTNERS

Schönox grows marketplace in US and Canada

FLORENCE, AL – 12 FEB. 2019

Certified Carpet Distributors and Chemtec have joined the growing list of distributor partners for Schönox HPS North America.

“These new distributors indicate solid growth for our company and in our industry,” said Doug Young, Schönox HPS North America executive vice president. “Based in western Pennsylvania, Certified Carpet Distributors opens our product up to a new marketplace, and the same is true of Chemtec, which is headquartered in Laval, Quebec, in the Montreal area of Canada.”

Representatives from Chemtec and Certified Carpet Distributors acknowledge that Schönox is a brand known for its quality and high standards.

Like Schönox “Chemtec has been a supplier for Canadian entrepreneurs in the past 15 years and is a vendor associated with quality and perfectionism that has performed above and beyond what a typical vendor does in terms of product quality, service, and support,” said Alan Nicholson, of Chemtec. “Schönox actively calls on its distributors and always goes the extra mile to visit jobsites when there is a problem or questions on how to proceed on short notice, and so does Chemtec.”

It’s Schönox’s line of products that helped establish the relationship with Certified Carpet Distributors, according to Dave McGee, the company’s general manager and executive vice president.

“It is a good fit with us because there was a void in our self-leveling line of products,” he said. “It filled a hole in our bag, so to speak, and we’re a full-line distributor, and, to be able to fill that line with a product like Schönox makes us very proud.”

For more details or to schedule an interview, please contact Michelle Rupe Eubanks, Senior Marketing and Communications Manager, at 256-246-0343 or meubanks@hpsubfloors.com

ABOUT HPS SCHÖNOX

Schönox, HPS North America, a business unit of HPS North America, is a customer-oriented, entrepreneurial, high-tech company that specializes in building materials suited for new buildings as well as for renovation.
